

PROMITHIAN GLOBAL VENTURES, INC. CORPORATE UPDATE

Salt Lake City, Utah, November 18th, 2014

Promithian Global Ventures, Inc. (PGVI) is pleased to announce that Mr. David Garbrecht, MS Geology, has joined the Board of Directors of the Company. Mr. Garbrecht has over thirty years experience in the mining business, as an exploration geologist, mine geologist, and a logistics and organizational change leader. Mr. Garbrecht holds a BS in geology from the University of Wyoming and a MS in Geology from the University of Nevada, McKay School of Mines. David has been employed by Rio Tinto Kennecott Utah Copper Corporation since 2005. David has acquired a wealth of experience in Western United States; Liberia, West Africa; Rio Tinto Brazil; and at Bingham Canyon, Utah porphyry copper mine. Mr. Garbrecht has most recently been an instructor and mentor for Six Sigma and Lean training for Rio Tinto North America. Trainees included: business improvement, marketing, lab, human resources, information support and technologies, operations, sustainable development, finance, legal, reliability, operations, maintenance, engineering, procurement, C&ER, and all levels of management. David has also been the Manager of Business Improvement Projects for Rio Tinto Kennecott Utah Copper refinery, tailings and water services.

It is with great regret that Promithian Global Ventures, Inc. also announces the resignation of Graeme Bethell from the Board of Directors of the Company. Graeme will be pursuing his own business interests in the future. The Company wishes him the best.

ABOUT PROMITHIAN GLOBAL VENTURES, INC.:

Promithian Global Ventures, Inc. (PGVI) is a development stage mining company. Promithian Global is currently testing the “Main Zone” polymetallic vein on the historic Warburton property in the southern Yukon, Canada. The intrusion related quartz-carbonate vein hosts extremely high grades of silver and copper as well as lesser amounts of zinc and antimony. Intrusion related polymetallic veins are excellent targets for high grade, small scale, and underground mines.
