ABOUT PROMITHIAN GLOBAL VENTURES, INC.

Promithian Global Ventures, Inc. (PGVI) is a development stage mining company. Promithian Global is currently testing the "Main Zone" polymetallic vein on the historic Warburton property in the southern Yukon, Canada. The intrusion related quartz-carbonate vein hosts extremely high grades of silver and copper as well as lesser amounts of zinc, antimony and arsenic. Intrusion related polymetallic veins are excellent targets for high grade, small scale, underground mines.

FORWARD LOOKING STATEMENT

This news release may contain forward looking statements based on assumptions and judgments of management regarding future events or results that may prove to be inaccurate as a result of exploration and other risk factors beyond its' control and actual results may differ materially from the expected results. The Company does not expect to update forward looking statements continually as conditions change. Important factors that could cause actual results to differ materially from the Company's expectations are disclosed in the Company's quarterly filings with the SEC and other periodic filings. No exchange has either approved or disapproved of the information contained herein.
