Managements' Q1 2016 Discussion

During Q1 2016, the Company continued to work on expanding its enterprise and market share within the women's fashion industry with the continued work on a number of initiatives intended to increase revenue and reduce operating expenses through increased efficiencies. These include multi-channel initiatives, marketing and enhanced inventory control software. The Company continues to focus on its level 1 websites in terms of maintaining and developing its customer base and growth. The multi-channel efforts include Amazon as well as other potential 3rd party market places.

Bravada International websites have earned one of the highest customer ratings for its product quality and customer service levels:

OnlyLeggings.com	4.7 (Google Trusted Stores)
WorldofLeggings.com	4.6 (Google Trusted Stores)
World of Leggings Amazon	4.8 (Amazon Marketplace)

Outlook

The Company expects the remainder of 2016 to be marked by weak consumer demand particularly for Q2 and Q3 which are always the two slowest quarters for the Company and the fashion industry. The Company has been planning for a weak 2016 for the better part of 2 years and is very well positioned for this current downturn. Many major name brand competitors are currently in a significant store closings cycle and some have entered bankruptcy protection such as Aeropostale which filed in May of 2016.

How USPS ePacket China to USA Shipping is Eliminating US Based Online Retailers

USPS's ePacket shipping allows a China based retailer to ship a 1 lbs package to Santa Monica, CA for less than \$1.99 with full tracking while a website such as OnlyLeggings.com would be charge \$6.10, even though Santa Monica, CA is a mere 4 miles away from its shipping warehouse. There has been a significant effort by US based retailers (Including Amazon) to change the system that is allowing China based online retailers to ship products to the United States at rates that are a fraction of what US based retailers can ship to an address across the street from them. The ePacket system that is allowing this disparity has been doing significant damage to United States online businesses and, in many cases, forcing them to close their doors entirely.

The following are some articles shareholders can read to begin to understand this issue:

<https://www.washingtonpost.com/news/storyline/wp/2014/09/12/the-postal-service-is-losing-millions-a-year-to-help-you-buy-cheap-stuff-from-china/>

<http://blog.skipmcgrath.com/2014/08/how-congress-the-post-office-and-chinese-businesses-are-screwing-ebay-and-amazon-sellers-with-the-epacket-program/>

<http://www.ecommercebytes.com/C/blog/blog.pl?/pl/2016/1/1453344622.html>

Bravada International Ltd urges all stakeholders to educate themselves on this issue and help increase awareness of this huge inequity. The majority of concerned citizens in the United States are unaware of the ePacket advantage that USPS is providing China based online retailers.

Bravada International Ltd. has continued to maintain the majority of its market share within the apparel industry despite the industry's decline and surge of low cost China competition. Over the last 2 years, the Company has implemented a number of initiatives to maintain its competitiveness which has included the following:

1. Free economy shipping option for all online orders
2. Competitive pricing derived from negotiating lower product costs from suppliers
3. Increased Productivity through advanced software inventory management
4. Same day shipping on 99% of all online orders placed before 2:30 pm Pacific Time
5. Enhanced customer experience with regards to customer service, product packaging and ease of ordering
6. Increased its sales channels to include Amazon
7. Certified "Google Trusted Store" with a very high customer satisfaction rating (OnlyLeggings.com and WorldofLeggings.com)
8. Near perfect rating as a Branded Retailer on Amazon.com

Management Synopsis

Management expects that the online apparel industry will continue its change into a price sensitive and service sensitive industry. There are a number of strong head winds that face US based online retailers, however, Bravada International has been well ahead of many of these trends and believes that it has a strong position to weather these issues and remain on the forefront of online apparel sales.

Accounting Changes

Bravada International terminated its accountant, Alice Cherng, on May 17 of this year for poor performance and negligence. A full description of the reason for termination can be found at this link:

<http://www.otcmarkets.com/financialReportViewer?symbol=BRV&id=155690>

The Company is currently engaging in interview selections to engage a new accountant and bookkeeper to prepare its financials. Due to the summer months and the July 4th weekend holiday season, the Company cannot guarantee that a new accountant can and will be engaged in time for he / she to familiarize themselves and complete the Company's Q3 financials by August 15. The Company shall inform stakeholders if additional time is required to complete its Q3 financials.

Risk Factors

The business of BRAVADA International Ltd. comes with a certain amount of uncertainties. It is impossible to determine the amount of sales that can be achieved quarter to quarter and any significant change in the economy may have a material impact on the Company. The current retail climate makes for a challenging environment to procure sales and generate cash-flow for the company and there is no way for the Company to know future anticipated sales / cash-flow. Till now, the Company has been able to continue to expand and operate through cashflow generated by sales of its consumer products and expects to continue to do so, however, there is no assurance that this may or will continue. The Company may, from time to time, utilize debt facilities to help expand and maintain its business.
