ANNABIDIOL CORP. DBA; FIRST HARBOR CAPITAL
NOTES TO UNAUDITED FINANCIAL STATEMENTS
March 31, 2018

NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION

AnnaBidiol Corp. (the” Company” or “Asiana”) was incorporated in the State of Delaware on Sept. 22, 2009 as DragonTel Holding, Inc. which thereafter changed its name to Asiana Dragons, Inc. The Company again changed its name, to Strategic Pharma Information Sciences, Inc. on July 25, 2016, and then to AnnaBidiol Corp. effective on FINRA approval on January 8, 2018. The Company is a Delaware corporation organized for the purpose of engaging in any lawful business.

The Company has had no business operations or activity since 2011 when it was associated with GJC Holdings, Inc. a wholly owned subsidiary which was divested. The subsidiary’s activities ceased in June of 2011 with the liquidation of all remaining assets and liabilities.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported and disclosed in the consolidated financial statements and accompanying notes. Such estimates include, but are not limited to, allowance for doubtful accounts and valuations of intangible assets, among others. Actual results could differ from those estimates.

Management regularly reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates.

Concentrations and credit risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and accounts receivable. The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The cash balance may at times may exceed federally insured limits. Management believes the financial risk associated with these balances is minimal and has not experienced any losses to date.

Risk and Uncertainties

The Company operates in an industry that is subject to rapid change and intense competition. The Company’s operations are subject to significant risk and uncertainties including financial, operational, technological, regulatory and other risks, including the potential risk of business failure.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less at the date of purchase and money market accounts to be cash equivalents. As of March 31, 2018 and December 31, 2017, the Company had no cash or cash equivalents.

Revenue Recognition

The Company currently has no realized revenue from operations. We account for product revenue in accordance with Accounting Standards Codification 606, Revenue Recognition, and all related interpretations. Revenue is recognized when the following criteria are met:

- Identification of the contract, or contracts, with a customer
- Identification of the performance obligations in the contract

- Determination of the transaction price
- Allocation of the transaction price to the performance obligations in the contract
- Recognition of revenue when, or as, we satisfy performance obligation

Any revenue received that does not yet meet the above recognition standards is recorded to unearned revenue and held as a liability until recognition occurs.

Impairment of Long-Lived Assets

The Company reviews long-lived assets, at least annually, to determine if impairment has occurred and whether the economic benefit of the asset (fair value of assets to be used and fair value less disposal cost for assets to be disposed of) is expected to be less than the carrying value. Triggering events, which signal further analysis, consist of a significant decrease in the asset's market value, a substantial change in the use of an asset, a significant physical change in the asset, a significant change in the legal or business climate that could affect the asset, an accumulation of costs significantly in excess of the amount originally expected to acquire or construct the asset, or a history of losses that imply continued loss associated with assets used to generate revenue.

Income Taxes

Income taxes are provided in accordance with ASC 740 Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Provision for income taxes consists of federal and state income taxes in the United States. Due to the uncertainty as to the realization of benefits from our deferred tax assets, including net operating loss carry-forwards and other tax credits, we have a full valuation allowance reserved against such assets. We expect to maintain this full valuation allowance at least in the near term.

The Company records interest and penalties related to unrecognized tax benefits in income tax expense. There were no interest or penalties related to unrecognized tax benefits for three months ended March 31, 2018 or the year ended December 31, 2017.

Earnings per Share Policy

The basic computation of loss per share is based on the weighted average number of shares outstanding during the period presented in accordance with ASC 260, "Earnings Per Share". The computation of diluted earnings per common share is based on the weighted average number of shares outstanding during the period plus the common stock equivalents which would arise from the exercise of stock options and warrants outstanding using the treasury stock method and the average market price per share during the period. Common stock equivalents are not included in the diluted earnings per share calculation when their effect is antidilutive.

Share-Based Payments and Stock-Based Compensation

Share-based compensation awards, including stock options and restricted stock awards, are recorded at estimated fair value on the applicable award's grant date, based on estimated number of awards that are expected to vest. The grant date fair value is amortized on a straight-line basis over the time in which the awards are expected to vest, or immediately if no vesting is required. Share-based compensation awards issued to non-employees for services are recorded at either the fair value of the services rendered or the fair value of the share-based payments whichever is more readily determinable. The fair value of restricted stock awards is based on the fair value of the stock underlying the awards on the grant date as there is no exercise price.

Recent Accounting Pronouncements

Management believes the impact of recently issued standards and updates, which are not yet effective, will not have a material impact on the Company's financial position, results of operations or cash flows upon adoption.

NOTE 3 – STOCKHOLDERS' EQUITY

The total number of common shares authorized that may be issued by the Company is 495,000,000 shares with a par value of \$0.0001 per share. The Company is authorized to issue 5,000,000 shares of preferred Series A stock with a par value of \$0.0001 per share. The Company is authorized to issue 5,000,000 shares of preferred Series B stock with a par value of \$0.0001 per share. As at March 31, 2018 and December 31, 2017 there are 41,943,306 shares of Common Stock outstanding, 500,000 Preferred Series A shares and

600,000 Preferred Series B shares are issued and outstanding. The Series B shares were retired to treasury after March 31, 2018 (see Note 4 - Subsequent Events).

The company approved a reverse split of the issued and outstanding common stock on a one for 5 basis, which became effective on FINRA approval on January 8, 2018.

Series A and Series B Preferred Stock

The Series A and Series B Preferred Stock of the company is owned by PRLTA, LLC. Such shareholder is also the control shareholder of the common stock. The shareholder may at some time elect to return or cancel some or all of the preferred stock (see Note 4 – Subsequent Events).

Series A – There are 5,000,000 shares of this Series authorized, and 500,000 shares issued and outstanding, with a deemed purchase price of \$1.00 per share, for liquidation purposes, and the shares have priority over all other preferred stock in liquidation.

The Series A has Super Majority voting power, voting with the common stock as one class, the equivalent of 60% of the common stock at all times. It cannot have the rights and privileges changed unless 75% of the shares of Series A vote to do so. There are no redemption rights, no cumulative dividends, and no conversion rights under the Series A Certificate of Designation.

Series B – There are 5,000,000 shares of this series authorized, and 600,000 shares issued and outstanding. The shares are junior to the Series A in priority on liquidation, but senior to all other shares. They have a deemed purchase price of \$1.00 per share for purposes of liquidation and payment of dividends. Dividends are payable at 15% per annum, cumulative, in cash or common stock. The shares are convertible to common stock on a one for one basis, at the option of the holder, or automatically, as a forced conversion, if the common shares are traded at a daily closing price of \$1.00 per share or more for 45 consecutive trading days. The shares are redeemable at \$1.00 per share plus accrued and unpaid dividends, on notice by the Company. The shares are secured by a Pledge on the assets of the Company for liquidation and merger purposes. The Certificate of Designation for the shares may not be modified without the vote of 75% of the Holders of the Series B Preferred stock. Subsequent to March 31, 2018, all Series B shares were returned to treasury (see Note 4 – Subsequent Events).

NOTE 4 – SUBSEQUENT EVENTS

We have evaluated all events that occurred after the balance sheet date through the date when our financial statements were issued to determine if they must be reported. Management has determined that other than as disclosed below, there were no additional reportable subsequent events to be disclosed.
