5. Issuer's Business, Products and Services

A. Business Operations

The Company is a holding company and currently operate through Mesa Pharmacy, Inc. (Mesa) and Nevada Health RX (NHRX).

We are in the process of creating multiple new subsidiaries including a to-be-formed entity to hold surgical centers that we are contracting to acquire and/or joint venture as well as a new collection company, which we are under a letter of intent to acquire. That potential subsidiary manages a portfolio of close to \$1 Billion in face value and generally bills as much as 20% of the amount collected.

The Company will be restructuring and intends to operate through six subsidiaries. Those are:

- Praxsyn Capital Corporation
- Praxsyn Medical
- PraxSurgical Inc.
- PraxTelemed
- PraxCollects
- Mesa Pharmacy, Inc.

B. Subsidiaries

All contact info is the same for all subsidiaries. The only officer and/or director for Mesa and Praxsyn Medical, Inc. is Frank Brady. NHRX, and Praxsyn Capital Corporation's sole officer and director is also Frank Brady; however, Greg Sundem is listed with the State of Nevada, which will be updated at the time the next annual list is filed.

1. Operating Subsidiaries

a) Praxsyn Capital Corporation

Praxsyn Capital Corporation (PraxCapital) purpose is to take the Company into revenue cycle management solutions for healthcare providers focusing on Personal Injury (PI) and Workers' Compensation (WC). Through PraxCapital, we plan to purchase medical receivables from health care providers at discounted rates in order to alleviate the strains lengthy collection cycles cause them. Typically, PI cases take 12 to 36 months for medical providers to get paid and WC can take substantially longer, up to as much as 8 years or more. We believe that large portfolios are available to purchase at, or near, 20% of face and collections should exceed 50%.

b) Praxsyn Medical Inc.

Praxsyn Medical Inc. (PraxMedical) was established to be a full-service wholesale medical supplies business. It is subsuming the operations of Nevada Health RX, Inc. in order for the company to focus on wholesale, as opposed to retail pharmacy and medical supplies and equipment. However, management intends for Praxsyn

Medical to act as a part of a vertically integrated supplier of drugs, and medical supplies to our to-be-formed surgical subsidiary,

c) Mesa Pharmacy, Inc.

Mesa currently focuses on administration and collection of our portfolio of WC Accounts Receivable. This portfolio has an approximate face value of nearly \$70,000,000 (although we have applied a discount to face for collectability and currently value it at \$11,014,473). WC claims can take a very long time to collect and require a nearly continuous presence before the California Division of Workers' Compensation. Often 8 years or longer.

d) Nevada Health RX, Inc.

Nevada Health RX, Inc. currently markets medical supplies through direct sales to medical practitioners. Its operations are being subsumed into Praxsyn Medical Inc. Management expects to sell off the remnants of Nevada Health RX or shut it down.

2. To-Be-Formed Subsidiaries & Acquisition Targets

The Company is either in the process of forming, or in negotiations to acquire the entities listed below.

a) PraxSurgical Inc. (to-be-formed).

The Company is in the process of acquiring two surgery centers in the Atlanta area currently owned by our director Sanjeev Kaila. These acquisitions will be structured as Joint Ventures under PraxSurgical and are intended to be the first of many. We are also negotiating the purchase of centers in Florida. PraxSurgical is the focal point of a broader strategy to create a vertically integrated company focused on solving problems inherent to both PI and WC. Specifically, the need to control costs, keep profit centers in one house, in order to achieve high profitability while delivering our products at the lowest possible cost.

b) PraxTelemed (acquisition target)

Key to the development of a vertically integrated solution to WC and PI, telemedicine lowers costs for carriers and employers. Praxsyn has identified an acquisition target already operating in this space, with all of the systems and infrastructure needed to quickly bring our unique vision to the markets we plan to penetrate.

c) PraxCollects (acquisition target)

Praxsyn is in negotiations to acquire an existing billing and collections company. The contemplated acquisition is intended to bring significant experience and capability, complementing the leverage we expect out of PraxCapital.

C. Principal products or services, and their markets

1. Revenue Models:

a) Purchase of Healthcare Accounts Receivable Portfolios (PraxCapital)

Under this model PraxCapital, financed by outside investors initially, intends to purchase blocks of receivables generated by third part medical practitioners and, eventually in-house sources (PraxSurgical, Medical and Telemed) enabling the Company to increase cash flow and more rapidly expand its other divisions.

b) Medical Practice Acquisitions (PraxSurgical)

PraxSurgical, intends to purchase and/or joint venture, the rollup of surgical centers nationwide. Coupled with in-house lead generation driven by PraxCapital, surgery centers represent an incredible opportunity to rapidly grow revenues/

c) Medical Supplies/Pharmaceuticals (PraxMedical)

PraxMedical, as an in-house supplier of medical supplies and pharmaceuticals, has the potential. To greatly increase the profitability of PraxSurgical, containing costs and increasing profits on each procedure, as well as sell to outside practitioners and businesses.

d) Tele Medicine (PraxTelemed)

PraxTelemed intends to exploit a proprietary marketing plan to penetrate the Workers' Compensation market, with the goal of reducing costs for insurers, the insured and patients, and generating opportunities for each division

e) Billing & Collections (PraxCollects)

PraxCollects is intended to exploit the knowledge and track record of an existing, collections company, under our corporate umbrella. We are currently negotiating this acquisition and will update shareholders as events progress.

2. Competition

- a) **Servicing Agencies.** Servicing agencies help with collecting some unpaid account receivables. However, servicing agencies provide neither a guarantee of the time it will take to collect, nor the amount that they will receive. Impersonal collection tactics can adversely affect healthcare practitioners' relationships with some law firms.
- b) **Working Capital Loans.** Working capital loans can satisfy the financial needs of practitioners, yet they charge very high interest rates and are difficult to secure.
- c) **Short Term Loans.** Short term loans provide fast cash but typically need to be paid back before new collection cycles have matured and they charge very high interest rates.

3. Market Opportunity

Through Mesa, the Company gained massive experience borrowing, hypothecating and otherwise securing funding against its portfolio of WC accounts receivables. Through that experience it identified methods and practices whereby a lender could make substantial returns on investment in financing healthcare practitioners and facilities. Furthermore, by acquiring medical facilities and owning the patient's healthcare from case inception, tele medicine, surgery, pharmacy, medical supplies and, ultimately, financing and collection of payment from insurers, the returns can be phenomenal.

Receivables can be financed at 20% of face with 2% Management/Origination fees (22% of face). Collection Fees run 20% of collections and investors are paid the delta between the 22% acquisition cost and collection, less the collection fee. Collections will generally run in the range of 50% of face over a 12-36-month period (outside CA, which can be much longer). The following table projects a hypothetical \$10M portfolio over a 36-month collection period:

Funding %	20.00%
Origination Fee %	2.00%
Collection %	50.00%
Collection Fee %	20.00%
Portfolio Face Value	\$ 10,000,000
Funding Amount	(2,000,000)
Origination Fee	(200,000)
Investment	(\$2,200,000)
Gross Collection	\$ 5,000,000
Collection Cost	(1,000,000)
Investor Profit	1,800,000
Annualized ROI	27.27%
Gross Revenue to Praxsyn	\$ 1,200,000

While there are significant portfolios of medical accounts receivables available for sale in PI and WC, the opportunities for a vertically integrated solution, combining PraxSurgical, PraxMedical and PraxTelemed, multiply the potential for profit centers in each vertical.

6. Issuer's Facilities

The Company leases a multipurpose office/laboratory/distribution center located at 61 Spectrum Blvd, Las Vegas NV 89101. This facility consists of offices, a conference room, an enclosed loading dock, break room, showers, a warehouse, and a laboratory (with two clean rooms), all spaces air conditioned. It consists of approximately 10,000 sq. ft and rents for @ \$6,800 a month. The lease expires December 31, 2021.

7. Officers, Directors, and Control Persons

To the best of the Company's knowledge, the following table lists any person or entity owning 5% of more of the issuer, as well as any officer, and any director of the company, regardless of the number of shares they own⁹

8. Legal/Disciplinary History

A. During the past 10 years¹¹ none of the person listed above have been the subject of:

1. Any conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);
2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;
3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or
4. The entry of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

⁹ Married persons include the total holdings of themselves, their spouse and any entities that they control.

¹⁰ The Board of directors agreed in September of 2018 to issue Mr. Sundem shares in exchange for unpaid back wages. These shares have not yet been issued as of the date of this Annual Report.

¹¹ The Company only has information as to its officers and directors. It is possible that some of persons listed above, who are not officers and/or directors, may have been subject to Questions 1 and 3 listed in this Section 8 A, however, the company has endeavored to secure background information, including searches of all federal courts (including bankruptcy courts) on each of those persons and, based on the results thereof, none would need to require a positive declaration as such.

B. Material pending legal proceedings.

1. California Division of Workers' Compensation

Mesa, a wholly owned subsidiary of the Company, provided specialized prescription compounding for Workers' Compensation (WC) claims in the State of California. Disagreements before the California Workers' Division of Workers' Compensation are, unfortunately, a routine aspect of the business of Mesa.

During 2017, the State of California, on behalf of insurance carriers, stayed certain liens held by Mesa. To date we have won repeated releases of stays on individual cases and now wish to assert the previous victories against our entire portfolio in one action.

An administrative hearing will be held during the second quarter and the Company strongly believes that it will prevail. The Company is seeking redress, additional compensation, including interest and penalties against the various carriers in addition to continuing to pay for services rendered by Mesa. However, should Mesa not prevail at that hearing, it may take additional time, and substantial efforts to win releases on a case by case basis in order to collect upon our extensive portfolio of claims. There can be no assurances given that Mesa will collect upon the stayed liens within a reasonable time period unless we can win en masse.

2. Echelon Med Liens

In the Circuit Court of the 15th Judicial Circuit in and for Palm Beach County, Florida - Civil Division Case No.: 50-2016-CA002680-XXXMB.

In March 2018, Mesa entered into a settlement agreement with Echelon Med Liens (Echelon) including an accelerated payment schedule should Mesa default on its agreement. Mesa defaulted on its settlement agreement with Echelon. The Company and Echelon have been working to negotiate an equitable arrangement for both parties and it appears, at this time, that the parties have come to just such an arrangement, with a written agreement being drafted presently and management expects it to be completed before the end of the first quarter.
