List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

On February 22, 2019, the board of directors approved a 1 for 100 reverse stock split of its common stock, to be effected on a certificate by certificate basis with all fractional shares being rounded up to the next whole share. The stock split did not effect the preferred stock of the corporation. On that same date, the company changed its name to BHPA, Inc.

Reorganization and Share Exchange

On June 21, 2019, pursuant to a Reorganization and Share Exchange Agreement, by and among the Company and BHP Advance Inc, the Company acquired one hundred percent (100%) of the issued and outstanding shares of BHPA, Inc for 316,933,399 shares of the Company, resulting in Company becoming a wholly-owned subsidiary of BHPA, Inc.

Since the major shareholder of BHP Advance Inc retained control of both the Company and BHPA Inc, the share exchange was accounted for as a reverse merger. As such, the Company recognized the assets and liabilities of BHPA, acquired in the Reorganization, at their historical carrying amounts. There were no assets or liabilities on that date.

BHPA, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD SEPTEMBER 30, 2019 and MARCH 31, 2018
(Unaudited)

Note 1 – Organization and basis of accounting

Basis of Presentation and Organization

The Company was incorporated in the State of Nevada on November 7, 2005, under the name “Nabo Inc.” On April 17, 2007, the name was changed to “Star Resorts Development Inc.” The name change was effected by merging with the Company’s wholly owned subsidiary, named “Star Resorts Development Inc.”, a Nevada corporation that we formed specifically for this purpose. The name of the company was changed to better reflect the direction and business of our company.

In addition to the change of name, a seven for one stock split was effected of authorized, issued and outstanding common stock. As a result, authorized capital increased from 75,000,000 shares of common stock with a par value of \$0.001 to 525,000,000 shares of common stock with a par value of \$0.001.

The Company was in the business of real estate development and Focused on emerging markets. As of March 31, 2009, the Company has ceased operations, the value of all previously held properties have been impaired to reflect the current status.

On October 08, 2018, the eight judicial District Court of Nevada appointed Custodian Ventures, LLC as custodian for Star Resort Development, Inc., proper notice having been given to the officers and directors of Star Resort Development, Inc. There was no opposition.

On January 22, 2019, Custodian Ventures entered into a stock purchase agreement whereby they transferred 10,000,000 shares of preferred stock to Hestia Investments Inc and BHP Advance, Inc in exchange for \$152,750 in cash. As a result of the sale, and David Lazar’s resignation as sole officer and director of the Company, there was a change of control of the Company. There is no family relationship or other relationship between the Seller and the Purchaser.

On February 22, 2019, the board of directors approved a 1 for 100 reverse stock split of its common stock, to be effected on a certificate by certificate basis with all fractional shares being rounded up to the next whole share. The stock split did not effect the preferred tock of the corporation. On that same date, the company changed its name to BHPA, Inc.

Reorganization and Share Exchange

On June 21, 2019, pursuant to a Reorganization and Share Exchange Agreement, by and among the Company and BHP Advance, Inc, the Company acquired one hundred percent (100%) of the issued and outstanding shares of BPHA, Inc for 316,933,399 shares of the Company, resulting in Company becoming a wholly-owned subsidiary of BHPA, Inc.

Since the major shareholder of BHP, Inc retained control of both the Company and BHPA Inc, the share exchange was accounted for as a reverse merger. As such, the Company recognized the assets and liabilities of BHPA, acquired in the Reorganization, at their historical carrying amounts. There were no assets or liabilities on that date.

The accompanying consolidated financial statements are prepared on the basis of accounting principles generally accepted in the United States of America (“GAAP”). The Company is a development stage enterprise devoting substantial efforts to establishing a new business, financial planning, raising capital, and research into products which may become part of the Company’s product portfolio. The Company has not realized significant sales through since inception. A development stage company is defined as one in which all efforts are devoted substantially to establishing a new business and, even if planned principal operations have commenced, revenues are insignificant.

The accompanying consolidated financial statements have been prepared assuming the continuation of the Company as a going concern. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and is dependent on debt and equity financing to fund its operations. Management of the Company is making efforts to raise additional funding until a registration statement relating to an equity funding facility is in effect. While management of the Company believes that it will be successful in its capital formation and planned operating activities, there can be no assurance that the Company will be able to raise additional equity capital, or be successful in the development and commercialization of the products it develops or initiates collaboration agreements thereon. The accompanying consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Note 2 – Summary of significant accounting policies

Cash and Cash Equivalents

For purposes of reporting within the statements of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Digital Currencies

Digital currencies consist of Bitcoin, Litecoin and Ethereum, generally received for the Company's own account as compensation for cryptocurrency mining services. Given that there is limited precedent regarding the classification and measurement of cryptocurrencies under current Generally Accepted Accounting Principles ("GAAP"), the Company has determined to account for these digital currencies as indefinite-lived intangible assets in accordance with Accounting Standards Update ("ASU") No. 350. As of September 30, 2019, the company held \$1,251,492 in Bitcoins (BTC).

Revenue Recognition

Effective July 1, 2018, we adopted ASC 606, Revenue from Contracts with Customers, as amended, using the modified retrospective method, which requires the cumulative effect of adoption to be recognized as an adjustment to opening retained earnings in the period of adoption. There was no cumulative effect of adopting the new standard and no impact on our financial statements. The new standard provides a single comprehensive model to be used in the accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance, including industry-specific guidance. The standard's stated core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this core principle, ASC 606 includes provisions within a five-step model that includes identifying the contract with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations, and recognizing revenue when, or as, an entity satisfies a performance obligation.

Our revenues currently consist of cloud mining services recognized in accordance with ASC 606 as discussed above. Amounts collected from customers prior to shipment of products are recorded as deferred revenue.

Providing a cryptocurrency mining SaaS platform powered by a reliable and secure blockchain algorithm, along with market-leading data processing capabilities and other online services. At present, BHP Advance has a well-established global partnership network with a number of large-scale cryptocurrency mining farms, such as RenRenmine Farms.

There is currently no specific definitive guidance in GAAP or alternative accounting frameworks for the accounting for the production and mining of digital currencies and management has exercised significant judgment in determining appropriate accounting treatment for the recognition of revenue for mining of digital currencies. Management has examined various factors surrounding the substance of the Company's operations and the guidance in ASC 606, including identifying the transaction price, when performance obligations are satisfied, and collectability is reasonably assured being the completion and addition of a block to a blockchain and the award of a unit of digital currency to the Company. In the event authoritative guidance is enacted by the FASB, the Company may be required to change its policies which could result in a change in the Company's financial statements.

Income Taxes

The Company accounts for income taxes pursuant to FASB ASC Topic 740, *Income Taxes*. Under FASB ASC Topic 740, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

The Company maintains a valuation allowance with respect to deferred tax assets. The Company establishes a valuation allowance based upon the potential likelihood of realizing the deferred tax asset and taking into consideration the Company's financial position and results of operations for the current period. Future realization of the deferred tax benefit depends on the existence of sufficient taxable income within the carry-forward period under the Federal tax laws.

Changes in circumstances, such as the Company generating taxable income, could cause a change in judgment about the reliability of the related deferred tax asset. Any change in the valuation allowance will be included in income in the year of the change in estimate.

Employee Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC 718 Compensation - Stock Compensation (“ASC 718”). ASC 718 addresses all forms of share-based payment (“SBP”) awards including shares issued under employee stock purchase plans and stock incentive shares. Under ASC 718 awards result in a cost that is measured at fair value on the awards’ grant date, based on the estimated number of awards that are expected to vest and will result in a charge to operations.

Estimates

The consolidated financial statements are prepared on the basis of accounting principles generally accepted in the United States of America. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of March 31, 2018 and 2017, and expenses for the years ended March 31, 2018 and 2017, and cumulative from inception. Actual results could differ from those estimates made by management.

Subsequent Event

The Company evaluated subsequent events through the date when consolidated financial statements are issued for disclosure consideration.

Adoption of Recent Accounting Pronouncements

As of December 31, 2015, the Company adopted guidance codified in ASU 2015-03, *Interest - Imputation of Interest (Subtopic 835-30), Simplifying the Presentation of Debt Issuance Costs*. The guidance simplifies the presentation of debt issuance costs by requiring debt issuance costs to be presented as a deduction from the corresponding liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected. Therefore, these costs will continue to be amortized as interest expense using the effective interest method pursuant to ASC 835-30-35-2 through 35-3. The Company has applied this guidance retrospectively to all prior periods presented in the Company's financial statements.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Recent Accounting Pronouncements

In February 2016, the FASB issued an accounting standards update for leases. The ASU introduces a lessee model that brings most leases on the balance sheet. The new standard also aligns many of the underlying principles of the new lessor model with those in the current accounting guidance as well as the FASB's new revenue recognition standard. However, the ASU eliminates the use of bright-line tests in determining lease classification as required in the current guidance. The ASU also requires additional qualitative disclosures along with specific quantitative disclosures to better enable users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The pronouncement is effective for annual reporting periods beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, for nonpublic entities using a modified retrospective approach. Early adoption is permitted. The Company is still evaluating the impact that the new accounting guidance will have on its consolidated financial statements and related disclosures and has not yet determined the method by which it will adopt the standard.

Note 3- Going Concern

The accompanying consolidated financial statements have been prepared assuming the continuation of the Company as a going concern. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and is dependent on debt and equity financing to fund its operations. Management of the Company is making efforts to raise additional funding until a registration statement relating to an equity funding facility is in effect. While management of the Company believes that it will be successful in its capital formation and planned operating activities, there can be no assurance that the Company will be able to raise additional equity capital or be successful in the development and commercialization of the products it develops or initiates collaboration agreements thereon. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.
