Does not include options issued to any shareholder.

Item A - The shares were issued pursuant to the terms of a Share Exchange Agreement dated December 10, 2016 with Hydration Company of PA, LLC.

Item B - On March 24, 2017 - Aged Debt - \$100,000 worth of aged debt was converted into equity in four tranches of 10,000,000 shares of Class A Common Stock.

Item C - On or about August 5, 2017, the Company entered into a Plan of Conversion where it changed its name and domicile from Converde Energy USA, Inc. a Nevada corporation, to American Energy Partners, Inc., a Colorado corporation. The trading symbol for the Common Stock was changed from "XFUL" to "AEPT." The Plan of Conversion also provided for a 20:1 reverse stock split, whereby every Twenty (20) shares of Common Stock of Converde Energy USA, Inc. was converted into One (1) share of Class A Common Stock of American Energy Partners, Inc. Every Twenty (20) shares of Class B Common Stock of Converde Energy USA, Inc. was converted into One (1) share of Class B Common Stock of American Energy Partners, Inc. These shares were requested by DTC to satisfy a shortfall due to rounded shares.

Item D - The shares were initially associated with an aged debt transaction that turned out to be unsubstantiated. The shares were returned by GPL Ventures to the transfer agent.

Item E - The shares were issued in consideration of purchasing the membership interest in Hickman Geological Consulting, LLC. See "Issuer's Business, Products and Services" for more information about Hickman Geological Consulting, LLC.

Item A – Not converted by maturity. The holder of the note shall have the right to convert any part of the outstanding interest or principal amount of the note into shares of Common A Stock equal to 50% of the lowest Trading Price during the 20 days commencing on the first trading day following delivery and clearance of notice.

4) Financial Statements

A. The following financial statements were prepared in accordance with:

- U.S. GAAP
 IFRS

B. The financial statements for this reporting period were prepared by (name of individual)⁴:

Name: John Lisicky
Title: Certified Public Accountant
Relationship to Issuer: Accountant

Provide the financial statements described below for the most recent fiscal year or quarter. For the initial disclosure statement (qualifying for Pink Current Information for the first time) please provide reports for the two previous fiscal years and any subsequent interim periods.

- C. Balance sheet;
- D. Statement of income;
- E. Statement of cash flows;
- F. Financial notes; and
- G. Audit letter, if audited

You may either (i) attach/append the financial statements to this disclosure statement or (ii) file the financial statements through OTCIQ as a separate report using the appropriate report name for the applicable period end. ("Annual Report," "Quarterly Report" or "Interim Report").

If you choose to publish the financial statements in a separate report as described above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to OTCIQ in the field below.

Financial statement information is considered current until the due date for the subsequent report (as set forth in the qualifications section above). To remain qualified for Current Information, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of each fiscal quarter-end date.

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company is comprised of three subsidiaries that source, treat and distribute reclaimed water in an effort to preserve our nation's naturally occurring resources. We are comprised of subsidiaries that source, treat and distribute reclaimed water in an effort to preserve our nation's naturally occurring resources.

B. Describe any subsidiaries, parents, or affiliated companies, if applicable, and a description of their business contact information for the business, officers, directors, managers or control persons. Subsidiary information may be included by reference

Our subsidiaries, Hydration Corporation of PA, LLC ("Hydration Corporation"), American Energy Solutions, LLC ("American Energy Solutions"), and Gilbert Oil and Gas ("Gilbert Oil"), will own energy operations as well as design,

⁴ The financial statements requested pursuant to this item must be prepared in accordance with US GAAP or IFRS by persons with sufficient financial skills.

build and operate regional water treatment facilities that serve the industrial and energy sectors. Together with Hydration Corporation and American Energy Solutions, Gilbert Oil provides value through net revenue interests, mineral interests and royalty rights.

Hydration Corporation of PA, LLC

Hydration Corporation is engaged in the businesses of water exploration, water augmentation, and the treatment of impacted waters. Through its subsidiaries and partners, we design, build, and operate regional water treatment facilities. Hydration Corporation is a leader in water-neutral energy solutions, as well as providing waste water technologies specifically designed to improve the impaired water disposal process.

We believe that Hydration Corporation's technology delivers one of the highest energy yields from a broad range of water-bearing assets, with one of the lowest capital expenditures of any other known water processes.

Hydration Corporation offers a range of low cost attractive modular systems or fixed facilities via its water conveyance methodologies, which produce low-cost water solutions in partnership with select small to large-size industrial energy users, government agencies, and non-profit watershed groups in target markets.

Hydration Corporation provides a solution to locate, procure, treat and distribute water. This patent-pending process provides cleaner water which results in an improved, safer environment. It can also mitigate drought conditions by accessing water previously unavailable. Applications may include, but are not limited to: oil and gas, pipelines, industrial use, utilities, mining, municipalities and landowners.

Hydration Corporation has designed a unique, patent pending system to treat and distribute water in an efficient and economical process that should encourage treated water to be used by gas drillers, pipeline companies, utility companies, industry and municipalities.

Over time Hydration Corporation has gained support for our unique, patent-pending process by the Pennsylvania Department of Environmental Protection (DEP), Susquehanna River Basin Commission (SRBC), and the Pennsylvania Department of Conservation and Natural Resources (DCNR). In fact, we are currently negotiating contracts and letter of intent agreements with these organizations for mines that store our inventory.

Hydration Corporation conducted its first pump test that was a field demonstration at Coal Creek, Blossburg, Pennsylvania, which was granted by the Pennsylvania DEP & the SRBC. The pump test was performed through AES using GeoTube Technology which produced a favorable test result. This enabled Hydration to: (1) confirm the economic model; (2) prove the validity of the business model; and (3) share the results with potential partners, customers and government agencies.

Since that field demonstration, Hydration Corporation has partnered with Eastern Pennsylvania Coalition for Abandoned Mine Reclamation (EPCAMR) and the SRBC to start the first three phases of due diligence at the Mocanaqua Tunnel. This property has an estimated 500 billion gallons of storage and appears to be an excellent candidate for Hydration Corporation's methodologies. This opportunity may be worth an estimated \$2.5 million of construction and operation and maintenance for AES. AES would provide the treatment technologies beginning in Phase IV.

Hydration Corporation's competitive edge lies within its pure volume of reclaimed water and its access to low cost treatment with high flow rates and highly concentrated solids through AES' partners' technologies. Because of this volume Hydration Corporation can effectively gain market share immediately as large corporations want access to one source that can supply massive amounts of reclaimed water to fulfill their input of production through Hydration's patent pending (US 2018/0362364 A1) methodology and conveyance methods.

The success of Hydration Corporation is dependent upon effectively entering into contracts with private and state-owned mines. These contracts will give Hydration Corporation the sole right to distribute water from privately owned mines across the country.

Hydration Corporation will operate out of multiple, predetermined, selected sites within the United States and will need minimal space to conduct its office activities. The sites differ in terms of geography, storage and water quality. All sites will be enabled for augmentation or the ability to mitigate during pass-by conditions. Augmentation is an

important factor of the equation. It allows Hydration Corporation to not only provide everyday water but to provide additional waters to the system when low flow conditions are present. This is a valuable piece of the model because no matter how long or severe of a drought, it gives customers the ability to consume, at their intake, up to their maximum docketed withdrawal thus granting them pass-by exemption.

How the model works: First, hydrological studies are performed statewide to determine the largest pools of non-potable water. Second, access and control of these mines are gained through contracts with the land owner. Third, final hydrology and engineering studies performed. Next, a filtration system is installed with all needed permits. Lastly, a dynamically-adjustable, turn-key system is put online that allows Hydration to execute its model of treatment and distribution through its proprietary conveyance system.

American Energy Solutions, LLC

American Energy Solutions is an industrial waste stream treatment company that intends to engage in the remediation of Superfund sites, coal ash, acid mine drainage, mine influenced water (MIW), drill cuttings (horizontal direction drilling or HDD and vertical directional drilling or VDD), flowback (water and other debris that comes to the surface after a well is fracked), produced waters and other industrial processes.

We provide treatment technologies that contribute to Hydration Corporation's business model of low-cost treatment and distribution. These treatment technologies also allow AES to leverage existing contacts in the industrial space and convert these contacts into contract value. AES's long-term goal is to bring waste stream treatment technologies in-house.

Gilbert Oil and Gas, LLC

We intend to develop Gilbert Oil and Gas, LLC ("Gilbert") as a U.S. based exploration and production company focused on generating long-term shareholder value through drilling, operating, and partnership opportunities in the upstream oil and gas space.

Gilbert's sole service is to provide cash flow through investment in oil and gas royalties, producing wells and the development of mineral rights.

Gilbert came into existence to capitalize on the depressed asset pricing in the oil and gas space. Gilbert's business model is to first capture royalty opportunities then gain working interests on producing wells and lastly to acquire land inventory through mineral rights.

Gilbert will concentrate its initial capital inside the Marcellus & Utica formations where we can monetize existing water assets and treatment technologies in WV, OH and PA.

Following this model, we are of the belief that meaningful asset and cash flow value will be derived over the course of time.

Hickman Geological Consulting, LLC

Hickman Geological Consulting, LLC ("HGC") is a full-service valuation and geotechnical services company that focuses on the decision space between earth materials and financial matters. Since 2013, HGC has been the Pittsburgh area's leading valuation house for oil and gas minerals connected with estate planning, expert witness, lease negotiations, and mineral sales. Since 2016, HGC has provided these services nationwide. In 2018 HGC diversified into geotechnical services related to landslide identification, mitigation, and design as well as geotechnical residential building services, such as ground stability and infiltration testing.

Mr. Hickman is a registered Professional Geologist in the state of Pennsylvania. Hickman Geological Consulting, LLC is sub-contracted for these services by small to mid-sized engineering and environmental firms to lend our expertise in these matters to their individual projects. Mr. Hickman's areas of expertise include soil physics and mapping for construction, erosion, sediment, and landslide issues, writing geologic investigation reports, and hydrological investigations.

Hickman Geological Consulting, LLC provides expert reports and testimony on the value of oil and gas rights and royalties in cases of tax, estate planning, divorce, real estate transactions, and litigation. HGC is the technical backbone of many successful mineral buying companies. We direct buy areas, provide expected profit statements, and provide the technical data necessary to educate investors.

We provide independent acquisition and divestment due diligence reports. We provide advisement to supplement your existing team, or act as customers' representatives. These services include geologic and/or reservoir modeling, well curve, EUR, and cost input creation and verification, economic model creation, data room generation and review, and environment and sediment control field review.

Hickman Geological Consulting, LLC's experienced staff can provide the needed experience and technical understanding to put landowners on level ground with operating companies in negotiations. We provide assistance during leasing, right of way, and well pad siting. Examples of these services include leasing terms, right of way negotiations, settlement options, and well pad locations.

C. Describe the issuers' principal products or services, and their markets

Water sourcing, treatment, & distribution in industrial & government markets. Acquisition of oil & gas assets.

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company's principal executive offices are located at PO Box 443 Allentown, PA 18105.

Gilbert Oil & Gas, LLC ("Gilbert O&G"), a wholly owned subsidiary of American Energy Partners, Inc. owns 15 oil and gas wells in western Pennsylvania. Included in these assets are 127 net mineral acres of deep rights (the "Deep Rights") and over 1,000 acres of shallow rights in the Tier I area of the wet Marcellus and dry Utica Shale. On October 9, 2018 Gilbert O&G sold the Deep Rights to Hickman Geological Consulting, LLC for \$30,000. Josh Hickman, COO is the principal of Hickman Geological Consulting, LLC. Hydration Company of PA, LLC ("HCPA"), a subsidiary of American Energy Partners, Inc. has a patent pending - US 2014/0305879 A1. On December 20, 2018 HCPA refiled a revised patent application with a new publication number of US 2018/0362364 A1.

Current Assignee: Hydration Company of PA, LLC

Abstract: A method of supplying water using a natural water pipeline includes withdrawing impaired water from an impaired water body connected to a waterway and treating the impaired water from the impaired water body to produce treated water. The method also includes discharging the treated water into the waterway and conveying the treated water via the waterway to one or more locations proximate to one or more remote operational facilities that withdraws water from the waterway at the one or more locations. The method further includes receiving a monetary value from one or more operational entities operating the one or more remote operational facilities and providing at least a portion of one or more water access rights to the one or more operational entities in exchange for the monetary value.

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

American Energy Partners, Inc. is a publicly-traded company (OTC: AEPT) comprised of subsidiaries that source, treat and distribute reclaimed water in an effort to preserve our nation's naturally occurring resources. Together with Hydration Company of PA (sourcing, distributing), American Energy Solutions (treating), Gilbert Oil and Gas Company and newly acquired Hickman Geological Consulting, LLC, the Companies provide value through net revenue interests, mineral interests and royalty rights.

On August 3, 2017 Converde Energy USA, Inc. fully converted into American Energy Partners, Inc.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the Company and its majority owned subsidiaries, Hydration Company of PA, American Energy Solutions, Gilbert Oil and Gas Company and Hickman Geological Consulting, LLC. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Accounts Receivable

The Company considers account receivable to be fully collectable at period end. Accordingly, no allowance for doubtful accounts has been recorded.

Property and Equipment

Oil and gas assets are calculated using the unit-of-production method based upon estimates of proved oil and gas reserves with oil and gas production being converted to a common unit of measure based upon their relative energy content. Investments in unproved properties and major development projects are not amortized until proved reserves associated with the projects can be determined or until impairment occurs.

AMERICAN ENERGY PARTNERS, INC. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

September 30, 2019 and 2018

See Independent Accountants' Compilation Report

Maintenance and repairs are charged to operations when incurred. Betterments and renewals that extend the useful lives of property and equipment are capitalized. When property and equipment are sold or otherwise disposed of, the asset accounts and related accumulated depreciation are reduced, and any gain or loss is included in operations.

Impairment

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the income statement in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

Stock Option Plan

During 2017, the Company established a stock option plan, the American Energy Partners, Inc. and Subsidiaries Stock Incentive Plan. Stock options are granted to officers and other key employees. The options fully vest after two years of continued employment. Newly issued shares of common stock are provided to satisfy stock option exercises. Under the Company's policy, all stock option awards and exercise prices are approved prior to the date of grant by the Board of Directors.

See Note 6 for additional information.

Income Taxes

The Company and its subsidiaries have elected to be taxed as a C corporation.

Deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities and are recalculated using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Due to continued net losses no asset or liability has been recorded.

The returns for 2018, 2017, 2016 and 2015 are subject to examination by the IRS, generally for three years after they were filed.

Each company files separate state income tax returns based on its individual earnings.

Advertising

The Company expenses advertising costs as incurred. Advertising expense for the three months ended September 30, 2019 and 2018 is \$28 and \$0, respectively.

Date of Management's Review

Subsequent events were evaluated through October 31, 2019, which is the date the financial statements were available to be issued.

AMERICAN ENERGY PARTNERS, INC. AND SUBSIDIARIES**Notes to the Consolidated Financial Statements****September 30, 2019 and 2018****See Independent Accountants' Compilation Report****NOTE 3. PROPERTY AND EQUIPMENT**

Property and equipment consists of the following as of the three months ended September 30, 2019 and 2018:

	Three Months Ended September 30, 2019	Three Months Ended September 30, 2018
Oil and gas wells	\$ 77,232	\$ 77,732
Less accumulated depletion	3,543	906
	<u>\$ 73,689</u>	<u>\$ 76,826</u>

Depletion expense for the three months ended September 30, 2019 and 2018 is \$644 and \$185.

NOTE 4. ACQUISITIONS

On July 11, 2019, the Company completed the purchase from Hickman Geological Consulting, LLC of substantially all of the assets. The aggregate purchase price paid was 40,500,000 shares of preferred stock.

GAAP defines the acquirer in a business combination as the entity that obtains control of one or more businesses in a business combination and establishes the acquisition date as the date that the acquirer achieves control. GAAP requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. GAAP also requires the acquirer to recognize contingent consideration at the acquisition date, measured at its fair value at that date.

The following table summarizes the fair values of the assets acquired at the acquisition date:

Cash and cash equivalents	<u>\$ 7,060</u>
Net assets acquired	<u>\$ 7,060</u>

The fair value of the purchase price of the business of \$40,500 exceeded the fair value of the identifiable assets acquired of \$7,060. Consequently, the Company recorded goodwill of \$33,440 related to the acquisition.

NOTE 5. CONVERTIBLE NOTES

The Company engaged GPL Ventures, LLC/Mininvest for crowdsourcing related to the Regulation A. The consideration for that retention was a \$100,000 convertible note yielding 8% with a maturity dated May 2018. The Company recorded interest expense relating to this note in the amount of \$2,369 and \$2,188 for the three months ended September 30, 2019 and 2018.

GPL Ventures, LLC/Mininvest has the right, commencing on the issuance date of this note, to convert any part of the outstanding interest or principal amount of this note into fully paid and non-assessable shares of common stock. The conversion price shall equal 50% of the lowest trading price during the valuation period, and the conversion amount shall be the amount of principal or interest electively converted in the conversion notice. The total number of shares due under any conversion notice will be equal to the conversion amount divided by the conversion price.

AMERICAN ENERGY PARTNERS, INC. AND SUBSIDIARIES**Notes to the Consolidated Financial Statements****September 30, 2019 and 2018****See Independent Accountants' Compilation Report****Stock Option Plan**

As discussed in Note 1, the Company established a stock option plan during 2017 and management reserved a pool of 20,000,000 shares of Common Stock to be issued when the options are exercised.

The Company granted stock options as follows:

<u>Issue Date</u>	<u>Options Issued</u>	<u>Common Stock Purchase Price</u>
September 6, 2017	250,000	\$0.0750
September 7, 2017	3,500,000	\$0.0750
September 7, 2017	5,000,000	\$0.0750
December 12, 2017	500,000	\$0.0740
January 5, 2018	750,000	\$0.0850
October 3, 2018	9,750,000	\$0.0065
	<u>19,750,000</u>	

The options fully vest two years from the grant date and are exercisable from then through a period of ten years from the date of grant. Using the Black-Scholes option pricing model, management has determined that the options issued in 2017 and 2018 have a value of \$.046, \$.056, \$.056, \$.080, \$.080 and \$.004 per share, respectively. Total compensation cost is \$11,500, \$196,000, \$280,000, \$40,000, \$60,000 and \$39,000, respectively. Compensation cost will be recognized after the options fully vest in two years. The Company did not recognize stock option-based compensation in the three months ended September 30, 2019 and 2018. The options purchase price was higher than the trading price.

As of September 30, 2019, unrecognized compensation cost related to nonvested awards totaled \$626,500. Of this amount, \$527,500 will be recognized in 2019, \$99,000 in 2020. No compensation cost was recognized due to the purchase price of the option being higher than the trading price. The weighted average period over which this remaining compensation cost will be recognized is 0.49 years.

The following is an analysis of options to purchase shares of the Company's stock issued and outstanding:
