NOTE 1: NATURE OF BUSINESS

ORGANIZATION

North America Frac Sand, Inc. (OTC: NAFS) dba Voycare (www.voycare.com) is a California based medical tourism and telemedicine service provider helping overseas patients gain access to quality health care primarily in the fields of oncology, in vitro fertilization, cosmetic surgery and wellness. Voycare's executive team has over 20 years of cross border tourism experience, specifically servicing Chinese outbound travelers to North and South America.

North America Frac Sand, Inc. dba Voycare is a Florida corporation.

The Company is headquartered in Covina, California.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating cost and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan to obtain such resources for the Company include, obtaining capital from management and significant stockholders sufficient to meet its minimal operating expenses. However, management cannot provide any assurance that the Company will be successful in accomplishing any of its plans.

There is no assurance that the Company will be able to obtain sufficient additional funds when needed or that such funds, if available, will be obtainable on terms satisfactory to the Company. In addition, profitability will ultimately depend upon the level of revenues received from business operations. However, there is no assurance that the Company will attain profitability. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The current COVID-19 Coronavirus pandemic continues to have devastating effects worldwide, becoming one of the biggest threats to the global economy and financial markets. The medical travel sector is especially affected by the current travel restrictions worldwide, making it difficult to travel for medical care, and thus there is no assurance the Company will be able to generate business for its medical tourism division in the short and long term. In addition to travel restrictions, local hospital continues to struggle with capacity and medical supplies to treat patients affected by the outbreak, making the capacity for medical tourists scarce as long as the pandemic continues.

BASIS OF PRESENTATION AND USE OF ESTIMATES

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATION OF PRIOR YEAR PRESENTATION

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

FISCAL YEAR END

The Company elected December 31, as its fiscal year ending date.

USE OF ESTIMATES

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of Nine months or less at the date of acquisition to be cash equivalents. Cash and cash equivalents at March 31, 2020 and December 31, 2019 were \$5,187 and \$0, respectively.

CASH FLOWS REPORTING

The Company follows ASC 230, Statement of Cash Flows, for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by ASC 230, Statement of Cash Flows, to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period.

FINANCIAL INSTRUMENTS

The Company's balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

North America Frac Sand, Inc.

Notes to Financial Statements
(Unaudited)

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of March 31, 2020. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments.

DERIVATIVE LIABILITIES

Derivative liabilities include the fair value of instruments such as common stock warrants, preferred stock warrants and convertible features of notes, that are initially recorded at fair value and are required to be re-measured to fair value at each reporting period under provisions of ASC 480, *Distinguishing Liabilities from Equity*, or ASC 815, *Derivatives and Hedging*. The change in fair value of the instruments is recognized as a component of other income (expense) in the Company's statements of operations until the instruments settle, expire or are no longer classified as derivative liabilities. The Company estimates the fair value of these instruments using the Black-Scholes pricing model. The significant assumptions used in estimating the fair value include the exercise price, volatility of the stock underlying the instrument, risk-free interest rate, estimated fair value of the stock underlying the instrument and the estimated life of the instrument.

DEFERRED INCOME TAXES AND VALUATION ALLOWANCE

The Company accounts for income taxes under FASB ASC 740 "Income Taxes." Under the asset and liability method of FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the year the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

NET INCOME (LOSS) PER COMMON SHARE

Net income (loss) per share is calculated in accordance with FASB ASC 260, "Earnings Per Share." The weighted-average number of common shares outstanding during each year is used to compute basic earning or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at March 31, 2020 and at December 31, 2019. At March 31, 2020 and December 31, 2019, the Company had no dilutive potential common shares.

RECENT ACCOUNTING PRONOUNCEMENTS

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the *FASB Accounting Standards Codification*TM ("ASC") is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. Management has reviewed the aforementioned rules and releases and believes any effect will not have a material impact on the Company's present or future financial statements.

We have reviewed the FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

NOTE 4: SHAREHOLDERS' EQUITY

PREFERRED STOCK

The Company has been authorized to issue 100,000,000 shares of \$0.00001 par value Preferred Stock. The Board of Directors is expressly vested with the authority to divide any or all of the Preferred Stock into series and to fix and determine the relative rights and preferences of the shares of each series so established, within certain guidelines established in the Articles of Incorporation.

(Unaudited)

Series A: 10 shares of preferred stock have been designated as Series A. The certificate of designations for the Preferred A Stock provides that it may only be issued in exchange for the partial or full retirement of debt held by management, employees or consultants, or as directed by a majority vote of the Board of Directors. Whereas the September 17, 2014 amendment enabled the Series A may be convertible into the number of shares of common stock which equals four times the sum of (i) the total number of shares of common stock which are issued and outstanding at the time of conversion, plus (ii) the total number of shares of Series B and Series C preferred stocks which are issued and outstanding at the time of conversion; the July 28, 2016 amendment eliminated all conversion rights associated with this class of stock. The Series A class possesses a number of votes equal to the number of common stock equivalents, if converted.

Series B: 99,999,990 shares of preferred stock have been designated as Series B. The certificate of designation for the Preferred B Stock provides that as a class shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion. Preferred Series B will have liquidation rites, an amount equal to \$1.00 per share, plus any declared but unpaid dividends for each share held. Each share will have 10 votes. Each share of Series B Preferred Stock shall be convertible into common shares, at any time, and/or from time to time, into the number of shares of the Corporation's Common Stock, par value \$0.00001 per share, equal to the price of the Series B Preferred Stock, divided by the par value of the Common Stock, subject to adjustment as may be determined by the Board of Directors from time-to-time (the "Conversion Rate").

On December 11, 2019, the Company issued 4 shares each of Preferred Stock, Series A to Mrs. Hong Chen and Mrs. Xuemei Li in accordance with the Exchange Agreement dated December 1, 2019.

On December 11, 2019, the Company canceled 1 shares its Preferred Stock, Series A from Mr. Joseph Kistler, CEO as a condition of the Exchange Agreement dated December 1, 2019.

On January 5, 2020, the Company issued 500 shares of Preferred stock, Series B to Brian Kistler for the extinguishment of certain debt and payables in accordance with the Exchange Agreement executed January 5, 2020.

Total shares of preferred stock, Series A, issued and outstanding at March 31, 2020 and December 31, 2019 were 8 and 8, respectively.

Total shares of preferred stock, Series B, issued and outstanding at March 31, 2020 and December 31, 2019 were 500 and 0, respectively.

COMMON STOCK

The Company's authorized capital stock consists of 500,000,000 shares of \$0.00001 par value per share Common Stock. Each share of issued and outstanding common stock shall entitle the holder thereof to fully participate in all shareholder meetings, to cast one vote on each matter with respect to which shareholders have the right to vote, and to share ratably in all dividends and other distributions declared and paid with respect to common stock, as well as in the net assets of the corporation upon liquidation or dissolution.
