(d) 5% of any non-royalty sub license income that Cardiol receives in relation to any human and animal heart disease, heart failure and/or arrhythmias indications, excluding cannabinoids included in (b) above, as outlined in the Meros License Agreement.

In addition, as part of the consideration under the Meros License Agreement, Cardiol (i) issued to Meros 1,020,000 common shares; and (ii) issued to Meros 1,020,000 special warrants convertible automatically into common shares for no additional consideration upon the first patient being enrolled in a Phase 1 clinical trial as described in the Meros License Agreement.

#### **7. Convertible debt**

On January 31, 2017, the Company issued a convertible debenture with a face value of \$400,000. The debenture bore interest at 3% per annum, calculated and payable monthly, and was to mature on January 31, 2020. In January 2019, the debenture was converted into 2,700,000 Class A common shares.

The Company used the residual value method to allocate the principal amount of the convertible debentures between the liability and equity components. The Company valued the debt component of the debentures by calculating the present value of the principal and interest payments, discounted at a rate of 40%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The equity conversion feature of the debentures comprised the value of the conversion option, being the difference between the face value of the debentures and the liability element calculated above. Based on this calculation, the liability component was \$140,537 and the residual equity component was \$259,463. Accretion charges attributable to the debentures for the six months ended June 30, 2019 was \$621. This amount was added to the liability component on the statements of financial position and was included in accretion and interest on convertible debentures expense on the unaudited condensed interim statements of loss and comprehensive loss.

On conversion of the debenture, the liability and equity components of the debenture were transferred to share capital (see note 8).

#### **8. Share capital**

##### a) Authorized share capital

**9. Stock options**

The Company has adopted an incentive stock option plan in accordance with the policies of the TSX, under which the Board of Directors of the Company may grant to directors, officers, employees, and consultants of the Company, non-transferable options to purchase common shares provided the number of shares reserved for issuance under the stock option plan shall not exceed 10% of the issued and outstanding common shares, exercisable for a period of up to ten years from the date of grant. **12. Commitments (continued)**

(iii) Cardiol entered into a development agreement (the "Caro Development Agreement") with the Clinical Academic Research Organization, S.A. DE C.V. ("Caro") dated August 28, 2018, to further research and development of proprietary drug formulations for the treatment of heart failure. Caro is a Mexican corporation dedicated to providing clinical and scientific experimentation and consulting, as well as performing development activities by itself or through third-party providers.

Pursuant to the terms of the Caro Development Agreement, Caro will provide scientific experimentation, research activities, medical drug development activities, and medical drug formulation and discovery to Cardiol (the "Development Activities"), as set out in a development plan (the "Development Plan"). Under the Caro Development Agreement, Caro may also engage third-party providers of development activities in support of the Development Plan, which is anticipated to be limited to third-party vendors of materials.

Pursuant to the terms of the Caro Development Agreement, Cardiol will immediately upon execution of the Caro Development Agreement allot and set aside 824,000 Class A Common Shares of Cardiol, and issue to Caro 824,000 warrants (the "Caro Compensation Warrants"), each warrant having the following qualifications: (i) an expiry date of August 31, 2022, or such earlier date as may be specified by a relevant stock exchange; (ii) an exercise price of \$4 per share (to be settled through the issuance of invoices by Caro); and (iii) each of the Caro Compensation Warrants entitles Caro to purchase one Class A Common Share of Cardiol for the exercise price. Cardiol also further agreed to pay Caro US\$400,000 in cash (paid).

Pursuant to the terms of the Caro Development Agreement, both Cardiol and Caro may terminate the Caro Development Agreement if either party believes in good faith that the continued performance of the Development Activities may be commercially unwise, jeopardize safety, or otherwise be unethical or illegal. However, if Caro terminates the Caro Development Agreement for any reason except breach of contract by Cardiol, or terminates the development activities under the contract prior to achievement of all milestones in the Development Plan, then any unexercised Caro Compensation Warrants that are not related to Development Activities and milestones in the Development Plan that have been attained up to the time of termination of the Caro Development Agreement shall be deemed terminated as of the time of termination of the Caro Development Agreement. Further, if Cardiol terminates the Caro Development Agreement for any reason (including breach of contract by Caro), or requires Caro to terminate the Development Activities prior to achievement of all milestones in the Development Plan, then the Caro Compensation Warrants issued to Caro that can be invoiced for the CARO Development Activities completed up to the time of termination shall be considered to have been earned notwithstanding such termination. The CARO Compensation Warrants that cannot be exercised (because invoices for CARO Development Activities not completed cannot be issued) will be deemed terminated, null and void as of termination.

(iv) Cardiol entered into an exclusive supply agreement (the "Exclusive Supply Agreement") with Noramco, Inc. ("Noramco") dated September 28, 2018, as amended on December 7, 2018, December 11, 2018, July 2, 2019 and September 11, 2019, and November 12, 2019 pursuant to which Noramco will be the exclusive supplier of pharmaceutical cannabidiol for Cardiol.

During the period, the Exclusive Supply Agreement was assigned to Purisys, LLC ("Purisys"), an affiliate of Noramco headquartered in Athens, Georgia. This assignment had no impact on Cardiol's rights under the Exclusive Supply Agreement.

Pursuant to the terms of the Exclusive Supply Agreement, Cardiol paid a non-refundable payment of US\$3,000,000 (the "Exclusivity Payment"). The Exclusivity Payment represents a prepayment for inventory and is being credited towards purchases.

Notwithstanding this restriction, Purisys shall have the right to sell pharmaceutical cannabidiol to third parties outside Canada for use in products that are approved as prescription medicines by the Therapeutic Products Directorate of Health Canada for delivery into Canada.

Effective upon entering into a supply agreement with Shoppers Drug Mart on March 17, 2020, the Exclusive Supply Agreement was amended such that Cardiol's exclusive rights for products sold to retail pharmacies in the Territory, such as Shoppers Drug Mart, were no longer conditional upon Cardiol meeting any minimum purchase requirements.

### **14. Subsequent event**

The recent novel coronavirus (COVID-19) pandemic has impacted and could further impact our expected timelines, operations and the operations of our third-party suppliers, manufacturers, and CROs as a result of quarantines, facility closures, travel and logistics restrictions and other limitations in connection with the outbreak. While we expect this to be temporary, there is uncertainty around its duration and its broader impact.
