MANAGEMENTS'S DISCUSION

NOTE: Shareholders should expect the majority of profits and free cash flow from operations to be reinvested back into the growth of the business. Profits are reinvested back into growing its current suite of websites and expanding into new verticals to maximize growth and ROI while minimizing taxes. The Company intends to utilize the majority of its liquid capital to minimize net profits and maximize its expansion efforts.

During Q2 2020, BRAVADA continued to build sales and inventory into its new website MedicalMaskSuperstore.com (MMS) and provide its complete face mask and PPE product offering at wholesale on LeggingsWholesale.com. OnlyLeggings.com and WorldofLeggings.com are also carrying the majority of the product line as well. Sales were quite brisk during the quarter as MedicalMaskSuperstore.com was able to capture many top 3 listing on 1st page Google searches for many valuable keywords. With an advertising budget of \$0.00, MMS is expected to generate significant revenues for the 2020 fiscal year.

During the 2nd quarter and despite the surging revenue generated by the Company's face mask and PPE business, there was the obvious eventuality that this revenue stream will begin to decline at some point and decline aggressively at the first sign that the Covid-19 pandemic was abating. In May of 2020, CEO Danny Alex decided that WorldofPets.com (World of Pets Superstore™) would be developed and launched, a product vertical that he had been planning as an expansion vertical since 2019. WorldofPets.com would be a way the Company would replace the eventual decline of the Company's face mask business and continue to grow the Company.

The Company has factoring in a decline in face mask and PPE sales just after the 2020 election and then again into the new year. It is expected that WorldofPets.com would have a soft 2020 opening with ongoing growth in 2021. The majority of products for this website are being shipped by ocean freight to minimize costs and maximize competitiveness in the dog and cat pet industry. This adds 3 − 4 weeks per product order making a longer time to get to North America and onto the website. Air freight is far too expensive for many of the products on WorldofPets.com. In addition, the Company is continuing to expand its USA Fashion™ brand with an even large offering of proprietary leggings and fashion designs. Additional expansion with regards to the women's fashion vertical shall be provided as they materialize.

WEBSITE DEVELOPMENT

BRAVADA maintains a significant advantage over other online companies as its CEO, Danny Alex, develops, designs, codes, launches and maintains all BRAVADA websites from inception, domain acquisition, CSS / HTML, content, Photoshop, SEO and more. This has enabled the Company to develop, launch and maintain its website portfolio at fraction of the cost of its competitors. BRAVADA enjoys hundreds of 1st page and top 3 key word searches on Google across its websites. Mr. Alex has learned and develop an effective methodology of successfully developing authoritative websites that Google rates as top-level websites given its success in attaining first page searches.

The Company considers details of its methodology of developing and launching its websites to be "Trade Secrets" and shall not discuss these particulars in any detail. BRAVADA continues to develop its suite of online retail websites and the knowledge and expertise required to launch, maintain, and grow them.

The mission of BRAVADA International has expanded to include any product vertical that meets a set of criteria to qualify a specific product category in this Amazon dominated retail environment. The Company has expanded its product opportunities beyond women's fashion and looks to develop online web properties across a large spectrum of categories. Each product vertical must meet a specific set of criteria that CEO Danny Alex has determined to be important to allow it to compete against Amazon and other large global competitors that possess vastly more resources.

RISK FACTORS

The business of BRAVADA International comes with a certain amount of uncertainties. The online retail environment can be very volatile and any major changes to the Google algorithm can adversely affect the Company's website unique visitor traffic and have a material effect on the Company's revenues. Accurately forecasting the Company's revenue growth or decline can be a difficult task as any number of factors can have an adverse effect on the Company's websites and overall business. Any significant change in the economy can also have a material impact on the Company. The Company has been able to expand and grow its business, however, there is no assurance that the Company can continue to do this given uncertainties associated with the economy, SEO, and the online business factors. An investment in the Company is speculative and involves a high degree of risk. The securities of the Company can be relatively illiquid, or "thinly traded,"

which tends to increase price volatility. Illiquid securities are often difficult for investors to buy or sell without dramatically affecting the quoted price. In some cases, the liquidation of a position in the securities of the Company may not be possible within a reasonable period of time or at the price desired or expected.
