CURRENT INFORMATION DISCLOSURE

March 30, 2021 4:30pm

Curative Biotechnology Chairman and President Paul Michaels updated the company's status with respect to its corporate action application pending at FINRA to enact a symbol change from CTYX to CURB.

"Our application is under normal review and we expect it to take effect in the near future. Unfortunately, in the age of Covid there are institutional delays that result from unexpected absences and work flow interruptions that simply cannot be avoided."
